

Columbia Falls Aluminum Company Open House
Thursday, October 8, 2015
Event Overview

Welcome to the Columbia Falls Aluminum Company (CFAC) Open House. The event is sponsored by the CFAC Community Liaison Panel and is offered to provide an update to those interested in the work being conducted and planned for at the former aluminum site.

There will be no formal presentation. The open house is designed to provide the public a chance to speak directly with those involved in project. Each task associated with the project at this time is represented. Feel free to visit each booth at your leisure. If you have questions about the open house, please visit the community liaison panel's booth.

Booths Represented	Area of Responsibility
CFAC Community Liaison Panel	Community representatives who meet with CFAC on a regular basis to discuss the project.
U.S. Environmental Protection Agency	Regulatory oversight of the project.
Columbia Falls Aluminum Company	Includes photographs, diagrams and background information about former operations.
Calbag	Demolition activities underway at the site.
Roux Associates	Proposed Remedial Investigation/Feasibility Study—process used to study site's soil and groundwater conditions/projected timeline. (Finalized timeline is based upon negotiations with U.S. EPA.)

About the CFAC Community Liaison Panel:

The CFAC Community Liaison Panel is intended to provide a forum for the discussion and exchange of ideas and opinions about the project. Members represent various interests and serve as a cross-section of the Columbia Falls and Flathead County community. The group meets on a regular, pre-announced basis at the North Valley Hospital Teakettle Community Room. For more information, please contact the facilitator, Mary Green. She can be reached at 1-800-784-4343.
